### SLAYS DAUGHTER'S BEAU.

**B. S. Conner Tried Upon Charge of Involuntary Manslaughter, and Jury Decrees That He Serve One Year in the Penitentiary.**

Trenton, Tenn., Aug. 26.—Charged with involuntary manslaughter, Benjamin S. Conner, a prosperous merchant, planter and bank director of Trenton, has been sentenced to serve one year in the penitentiary, after a trial that has attracted attention from one end of the state to the other, owing to the manner in which Frank Dixon, a popular young man of the community, met death, for which the jury held Conner responsible.

Dixon was killed by a shot discharged from a gun which was connected with a burglar alarm apparatus, set by Conner, the defense maintained, to scare off night intruders.

Dixon was calling on the daughter of the defendant when he stepped on the trap which sprung the trigger, sending the shotgun's load into Dixon's body, causing instant death.

It was said a burglar alarm company had a representative on the spot, assisting in defense of Conner.

### THRILLING TIME.

Holds Dynamite While Fighting a Monster Pilot Snake.

Trenton, N. J., Aug. 26.—John Hutchinson, a professional blaster at the quarries on the Mercer county farm, a detention institution, had a thrilling experience while at work on a slender rope in a rocky chasm, 150 feet in depth.

Hutchinson had been lowered about half way to the bottom of the chasm and was preparing to place a blast of dynamite in the rocks when, loosing up, he beheld a monster pilot snake of the mountain variety, which had twined about the rope above him, gliding stealthily upon him.

He dared not drop the dynamite lest he cause an explosion that would have blown him to pieces. He was obliged to keep a tight grip on the rope or he would have been hurled to the bottom of the pit. He was unarmed except for the little drill which he carried.

Hutchinson quickly slipped the dynamite into one of his pockets. Then he got a fresh grip on the drill, and as the snake dropped almost within reach of his head he struck out violently at the intruder. Again and again the drill descended, and finally the reptile dropped to the pit below.

Hutchinson signaled for help and was drawn up to the top of the quarry in an almost exhausted condition. As he stepped back from the rope that had hauled him to safety two other pilot snakes struck at his legs, but his heavy boots saved him from their poisonous fangs. These snakes were speedily dispatched.

### LATEST SWINDLE.

Raspberry Wine Is Palmed off as Being Champagne.

New York, Aug. 26.—Frederick Spaeph and Max Grabstone were arraigned before Magistrate Crane and held in \$1,000 bail on a charge of grand larceny. Champagne was their vehicle for separating the unsuspecting from good money, according to Ernest Wolf, a jeweler of Pleasantville, N. Y., who said that he lost \$1,000 to them.

According to Wolfe, the prisoners represented themselves as being the "Grape Fruit Champagne and Tonic company." They exhibited to those who would become their partner a large stock of goods, including 15 barrels of champagne at \$500 a barrel. The barrels, according to Wolf, contained raspberry wine.

### SHIP SINKS TUG.

Five Men Are Said to Have Drowned as Result.

Baltimore, Aug. 26.—The British steamer *Barnestable*, Captain Davidson, from Port Antonio for Baltimore, ran into and sank the tug *Carrie*, Captain McCoy, in Ship Channel, off Sparrow's Point. Five men are reported drowned. The men drowned are said to have been members of the crew of the dredge *Standard* and included a *Standard*. The tug was engaged in towing mud scows from the Captain of the *Standard*.

### Attacked by Yellow Jackets.

Bellefontaine, O., Aug. 26.—While Benjamin Gentzell was currying a horse a swarm of yellow jackets suddenly alighted upon him and the horse. Hundreds of the insects on settled on Gentzell's shoulder and the left side of his face. Before he had freed himself from them they had stung him so severely that his face and shoulder were bleeding and raw.

### GOVERNMENTAL CONTROL

**President of Telegraphers' Union Says That Fully Ninety-Five Per Cent of Commercial Operators Are Not Now Manipulating Keys.**

New York, Aug. 26.—S. J. Small, president of the Commercial Telegraphers' Union of America, arrived in New York Sunday morning from Chicago. He was met at the station by a large delegation of striking telegraphers.

In the afternoon Mr. Small attended a meeting of the strikers, where he was received with enthusiasm.

He made a brief address, in which he dealt with the general situation, refraining from discussing local conditions.

Mr. Small gave out an optimistic statement regarding general strike conditions, saying:

"We have fully 95 per cent of all the commercial telegraphers in the United States on strike. This applies to small and large cities. Thousands of one-man offices are closed and the keys to the doors are in possession of city officials, to be turned over to the inspectors of the companies when they arrive."

"We have started to raise a large fund—two of them, in fact. One of these is for the benefit of the strikers and the other to be expended in propaganda work in favor of government control of the telegraph. Although the call for funds has only been out a few days, many remittances were received before I left Chicago, and, strange to say, as much was received for the campaign fund as for the benefit of the strikers."

"Much has been published about arbitration, but the cry from coast to coast is 'No arbitration.'"

In face of the statements by the president of the striking unionists, both the Western Union and Postal Telegraph companies emphasize their declarations that the situation is improving daily, and that, barring a few unimportant towns, conditions are gradually but steadily assuming a normal basis. They announce that they are handling all the business offered with dispatch.

Fire was discovered near the south entrance of G. S. Parker's warehouse Sunday day afternoon, and investigation showed one bale burning and two just caught. They were rolled out and speedily extinguished with the loss of about half of one bale. The bale belonged to Tom Davidson and the loss was covered by marine insurance. The indications are that the bale was on fire inside when placed in the warehouse.

Navasota got her first bale before Bryan this year, and has been ahead on cotton receipts up to the last report on Saturday, when Bryan forged ahead, and will as usual maintain the lead of all towns in this section of the state. Navasota received up to the Saturday report 639 bales, and Bryan received to the same date 647 bales. The Bryan receipts of the middle of last week appeared without being corrected up in the Eagle of Sunday morning. Republi-cation in correct form appears elsewhere in the Eagle this morning up to Monday evening.

Frank Ruchti, the ten-year-old son of Mr. and Mrs. Paul Ruchti, was run over and knocked down by a dray mule near the City National bank shortly after noon yesterday. The mule also kicked at the boy with both feet and the heels grazed his face, and the dray passed over him without the wheels striking him. He was dazed by the accident and his escape from death was marvelous. The little fellow was game, however, when revived from the shock. This accident should serve to call forcible attention to the fast driving of some of the draymen on Main street without a load. It is a menace to the safety of the public and should be summarily stopped. The driver was in this instance arrested and jailed. He has not been here long and is from Grimes county.

## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular stomach remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

## Heart Strength

Heart strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible, but I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Durnstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, but now, at last, it is a remedy that cures all curable cases of this horrible, much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

## NEGROES POISONED.

**Rough on Rats Thought Put in Butter and Flour.**

Clarksville, Tex., Aug. 26.—Will Young, a negro farmer, and one of his sons were fatally poisoned by eating rough on rats in biscuits. Another son will die. It happened near Coul- land, Red River county. The poison is supposed to have been put in butter and flour from which biscuits for breakfast were made last Thursday morning.

The darkey and his two sons were at home alone, the wife and daughter having gone to the Territory on a visit.

After breakfast Will Young went out to the lot to milk. While milking he fell over on the ground and had spasms. He got on his feet with difficulty and reached the house.

He found his boys, one eighteen and the other sixteen years old, in the house having spasms. A runner was sent to annona for a doctor. Emetics were given, but the father died and one of the boys soon followed.

The corpse of Will Young was exhumed and the stomach was examined by Drs. McDonald and Scaff. It was found to contain a large quantity of rough on rats. A box of the poison, half empty, was found in the house. An arrest has been made.

## AGAINST CONSTITUTION.

**Secretary Taft Says He Would Not Vote For the Measure.**

Oklahoma City, Aug. 26.—Greeted by what is asserted to be the largest gathering in the history of Oklahoma, Secretary Taft delivered an address here Saturday night. He declared that were he a citizen of Oklahoma his vote would be recorded against the proposed constitution. The secretary asked his hearers to support the Republican ticket. He said he would trust to congress to pass a new enabling act. Mr. Taft did not make the speech he intended delivering. While at St. Louis he and Senator Warner of Missouri exchanged grips. On the way he prepared another one.

Secretary Taft disavowed any authority to speak for President Roosevelt, and said his advice came from him alone. He said the president might veto the constitution.

Informally discussing the prohibition clause the speaker said: "I never saw a town where a man could not get a drink if he wanted one."

## ATTEMPTED ASSAULT.

**Farmer Alleged to Have Made Attack Upon Young Widow.**

Nacogdoches, Tex., Aug. 26.—Douglass Wagoner, a farmer, twenty-three years old, residing in this county, was jailed on charge of attempted assault on Mrs. Mamie Evans, a young widow, in this city. It is alleged that Wagoner sprang at Mrs. Evans from behind a tree as she was walking along a street, tearing her clothing. She screamed and ran. Her father and some other men captured the young man. R. C. Haynes, the lady's parent, felled Wagoner with a club. He got up and ran a mile, being finally caught by the sheriff and posse and jailed. There was great excitement.

The ordinance provides that it will be unlawful for a male or female person to loiter on the steps of any church or public building, or in the doorway of any store, for the purpose of visiting, eating candy or peanuts, or loitering on a street or vacant lot or other obscure place for the purpose of flirting in the meantime.

Gibson, Episcopal bishop of the diocese of Virginia, had a narrow escape from serious injury, if not death, while driving along a turnpike near White Post, Clarke county, at night, with Rev. Thomas Carter Page, rector of the Cavalry church of Front Royal. A large automobile belonging to D. C. O'Flaherty of Richmond came along and the horse was much frightened. Both clergymen jumped out to hold the horse, but in doing so were thrown against a stone wall. Mr. Page sustained numerous cuts and bruises, and blood flowed freely from his wounds. Bishop Gibson's injuries were not serious, but he was severely shaken up.

## COULDN'T STAND IT.

**So He Hurled Georgia Watermelon at Russian's Head.**

Atlanta, Aug. 26.—A new use was discovered for watermelons by W. H. Whittle, who had a wagonload of them near the Southern railway yards awaiting a purchaser.

Several immigrant peddlers approached him and one by the name of Hosea Spalvinxtey, asked him what the melons were worth.

"I'll take \$15 for the load," said Whittle.

"Th, ugh!" cried Spalvinxtey, derisively, "for those things?"

Then, according to Whittle's testimony in police court, the blink foreigner began ridiculing the melons in every word of English and Russian he could command.

"I simply couldn't stand it, judge," said the American, "to see good Georgia watermelons called such names. And when he ended up by offering me \$7.50 for the whole load I confess I grew indignant."

"And what did you do?" asked the judge.

"Why I picked up a melon and stove it at the heathen for all I was worth."

Mr. Whittle was given a \$5 fine.

## DASHES FOR LIBERTY.

**In Consequence, Maniac Prisoner is Now a Corpse.**

Schenectady, N. Y., Aug. 26.—One of the worst outbreaks among the insane prisoners in the history of Clinton prison at Dannemora has just occurred. Isaac Dubois, one of the lunatics, is dead, shot through the heart by a guard.

The insane prisoners were being marshaled for bed, when, at a given signal, they rushed into two big lower dormitories and slammed the doors in the faces of the guards. Having locked the doors, they set about making their escape by smashing the doors and sawing the bars. Some of the less violently helped the jailers.

The guards turned upon them from the windows streams of water from the fire hose. This kept them at bay, but did not subdue them. The guards were finally obliged to use rifles and pistols, and it was after midnight before the uprising was quelled. Several other prisoners were severely wounded.
